

Concrete Hoppers

Concrete Hopper - The self-dumping hopper attachment could automatically activate to both unload and release when the bumper release contacts the side of a dumpster. After unloading is finished, the hopper is able to go back to original locked and upright position. This piece of machinery is likewise offered together with a cable that allows operation from the seat of the lift truck in order to have the option of manually unloading the hopper. There is a locking chain provided to be able to secure the hopper to the fork truck. This product is constructed with consistent and reliable robotic welds for utmost strength. The forklift dumping hopper also has a blue powder coat finish in order to maintain durability.
